

What weighs more, a pound of feathers or a pound of lead? A silly question, right?

Which controls more snails - a pound of Deadline or a pound of SLUGGER ULTRA?

Independent research determined that 12.5 pounds of SLUGGER ULTRA proved equally as effective as 25 pounds of Deadline.

Use half the bait for the same control!

With mounting costs, growers are constantly seeking ways to accomplish more with less. SLUGGER ULTRA is the brand that helps keep budgets down without compromising on control.

With proprietary attractants and 4% Metaldehyde, SLUGGER ULTRA is so good that slugs and snails don't even have to eat it to meet their demise, they only have to touch it! So, fight these money grabbing bandits without breaking the bank and use SLUGGER ULTRA.

“Better Yields Through Science”
Isn't just a catchy tagline, it's what we do.
